Campus Master Plans

Summer Master Plan Update

The season is for fun, sun, and...hard work on the campus plan! Our consultant team is currently synthesizing months of research, observations, and your input provided through surveys and open houses to finalize the Glassboro Campus Master Plan Report. Look for an upcoming presentation date in the fall to hear all the details!

In the meantime, check out the work of Dr. Mahbubur Meenar's Spring 2024 Planning Studio! Through participation with the official Master Plan design process, and supplemented by their own, this undergraduate and graduate level planning class in the Department of Geography, Planning, and Sustainability prepared a Master Plan report that analyzes existing conditions, looks to relevant precedents, synthesizes data, and makes recommendations for the Glassboro campus. A big "thank you!" to the class for their participation and inspiring end product. The studio's work can be found here:
